We Choose Welcome
Dear Senator/Representative __________________

As a person of faith, I write to ask you to restore the U.S. Government’s humanitarian commitment to refugee resettlement. The United States receives countless contributions from refugees, and we owe to those still waiting a pathway to a new home country where they can belong.

We join with our refugee brothers and sisters to ask you to:

• resist the dismantling of the Refugee Resettlement Program with robust admission numbers and funding;
• urge DHS to prioritize the reunification of refugee family members; and
• increase the refugee resettlement goal to one that faithfully responds to urgent global needs.

Sincerely,

You shall also love the stranger, for you were strangers in the land of Egypt. (Deut. 10:19)
